

SVP HR with a strong search, recruiting, organizational development, HR strategy and talent management background. This is what I sometimes refer to as the “soft” side of HR or the “human” part of Human Resources. I would greatly appreciate all networking referrals for those who desire a strategic corporate position in the Mid-Atlantic at Corporate Headquarters supervising a large non-compensation staff.

BS with MBA from a top school is a must; total package around \$400k.

If you want to recommend someone, give me a call or send me a note.
